

CALOMEL WHEN BILIOUS? NO! STOP! ACTS LIKE DYNAMITE ON LIVER

I GUARANTEE "DODSON'S LIVER TONE" WILL GIVE YOU THE BEST LIVER AND BOWEL CLEANSING YOU EVER HAD.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, craters into it, breaking it up. This is when you feel that awful nausea and cramping. If you are "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful tonight and if it doesn't straighten

you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

"RAMONA" AT THE PALACE TODAY

It is an interesting fact that the Biograph Company once made a production of "Ramona" in one reel. In the Clune cinema-operatic spectacle, "Ramona," now ready for its showing after nearly eight months' work by the combined forces of a large plant, more than 50,000 feet of pictures of the incidents of "Ramona" were taken, and the producers found the greatest difficulty in compressing the picture into the limit of 10,000 feet. Nothing could better illustrate the great advance of the motion picture art in a few years than this contrast of incidents.

Owing to the fact that "Ramona" has been so widely read as a novel by

women and children, it has been decided to give one matinee during the engagement of this much heralded spectacle at the Palace tomorrow, in order to afford them an opportunity of viewing in real life pictures the beloved characters of Helen Hunt Jackson's justly celebrated story.

One of the many scenes in "Ramona" which cause rapturous outbursts of applause, is that in which a flock of sheep numbering 22,000, is seen being driven to the pens for shearing. At one point they come to a place where it is necessary to jump down a distance of about 4 feet and you can plainly see them hesitate until the leaders make the plunge, when all the balance tumble after in a wave in the proverbial manner.

BIG SHOW COMING HERE

THE YANKEE ROBINSON CIRCUS

Coming to Ardmore next Wednesday has many educated wild animal acts. This picture is HILDA and her Lion Cubs she raised on a bottle, and they follow her everywhere. The program has trained seals, pigs, elephants, polar bears, all to be seen in the open den parade.

BEAUTIFUL AND POPULAR QUEEN MARIE

ROMANIAN QUEEN'S ROYAL FAMILY MOST POPULAR AND BEST LOOKING ON EUROPEAN CONTINENT.

LONDON, Sept. 15.—(Correspondence of the Associated Press).—One of the many reasons for rejoicing here at the entrance of Rumania into the war on the side of the allies is the fact that the Rumanian queen is an Englishwoman of great popularity. Before her marriage to the Hohenzollern prince who is now King Ferdinand, Queen Marie was the beautiful and popular daughter of the late King Edward's eldest brother, the late Duke of Edinburgh. She is still regarded as beautiful, and indeed with her husband and two boys and four girls is frequently spoken of as constituting the best looking royal family in Europe, as well as the most photographed.

Queen Marie is beloved throughout her country for her generosity and constant efforts in behalf of the poor. She is the leading spirit of the Society of Goddesses of Rumania, each goddess acting as a fairy godmother to at least one poor child. The queen has an odd hobby in the collection of scent bottles, of which she has more than 8,000.

When aboard her father's flagship at Malta, Rumania's future queen became a great favorite with officers and sailors. She had a great love of helping the ship's cook with his duties. On one occasion she fried fifty eggs and slices of ham and had them distributed among the men as a token of goodwill.

A Clogged System Must Be Cleared
You will find Dr. King's New Life Pills a gentle yet effective laxative for removing impurities from the system. Accumulated waste poisons the blood; dizziness, biliousness and simply, muddy complexion are the distressing effects. A dose of Dr. King's New Life Pills tonight will assure you a free, full bowel movement in the morning. At your Druggist, 25c.

GLENN FARMER MUCH PLEASED.

Cotton Farmer for 35 Years Sells Highest Priced Cotton Yesterday.

"I have been marketing cotton for 35 years," said C. H. Davenport, who was here today from Glenn, "and I never before sold cotton as high as I sold it for today." Mr. Davenport has brought cotton to the market from his farm and has sold his load as \$15.50 per hundred pounds. Some of the cotton sold on the streets at \$16 a hundred pounds. For more than half of these 35 years Mr. Davenport has been selling cotton on the Ardmore market.

He has the same acreage that he had last year, but his crop will not be quite so good. He marketed last year 20 bales, and from the same acreage this year he will gather from twelve to fifteen bales. Besides raising 4,500 worth of cotton he also raised a good corn crop. Mr. Davenport says there will be no top crop of cotton except in lowlands, where the plant kept growing all the summer.

Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

He Realized Its Truth.

"It was Shakespeare, wasn't it, who said 'Sweet are the uses of adversity'?" "Shakespeare may have said it originally, but I heard it from a lawyer who had pocketed 65 per cent of an estate."—Boston Transcript.

Catarrh Cannot Be Cured
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The secret combination of the ingredients in Hall's Catarrh Cure is what produces such wonderful results in catarrhal conditions. Send for testimonials free.

Hall's Family Pills for constipation.

PLANNING FOR SPRING RACES NEXT YEAR

RACING BUG HAS HIT THE CITY AND THE CHANCES ARE THAT SOME CLASSY EVENTS WILL BE STAGED.

The racing bug has struck Ardmore, and the bite of the insect is liable to lead to some fine sport within the next year. People in Ardmore and Carter county like to see the ponies go. They are not averse to seeing speed mania taking chances with death in a motor car or motorcycle, and since the county fair, when they had an opportunity of witnessing some pretty good races, the disease, or habit, or whatever you please to term it, has taken a firm hold, and they want more of this sport.

The Business Men's association of this city staged one of the classiest events ever held here last April, when they gave their style show. They are going to repeat it next spring on a larger scale and the horse fanciers of this and adjoining counties are even now planning for future races during the week, as well as a classy horse show.

The matter will be taken up in detail as soon as all the county fairs of Oklahoma are over, and the secretary of the fair association returns from the dry farming congress at El Paso.

Yellow complexion, pimples and disfiguring blemishes on the face or body can be gotten rid of by doctoring the liver, which is torpid. HERBINE is a powerful liver correctant. It purifies the system, stimulates the vital organs and puts the body in fine vigorous condition. Price 50c. Sold by Ringer Drug Co.

Purchased Peanut Picker.

W. S. Watson of Ardmore, on one of Walter Colbert's farms, has purchased a Benthall peanut picker. The machine is truly a picker and not a thrasher. The vines are fed to the machine in the same order that grain in the straw is fed to a thrashing machine, and by a system of endless bar construction the vines are carried over a diamond mesh wire cloth through several gangs of tortion springs. The result is that the peanuts are pulled off the vines without any injury to the shell. Peanuts will not keep when the shell is injured. The machine has a stemmer attachment which removes the stem, and also a fan which blows out all the dirt, trash and sappy peanuts, the entire process resulting in a product superior to the hand-picked nuts. Besides having a large acreage of Spanish peanuts to thrash for himself, Mr. Watson will do custom work and thrash for the other planters of nuts in this vicinity this year. This will be gratifying news to the farmers who will market their crop, and will lead to a much larger increase of acreage planted to the Spanish peanut this coming season. This is certainly one year when peanuts give promise of being too valuable to be used for hog feed. The manner in which this crop has withstood the drought is bound to result in a strong local demand for peanuts for planting next spring. There is no need of going through the laborious process of pulling the peanut crop. After the pods are mature, and before the vines and leaves are too ripe for hay, the plant may be loosened by running under the rows the share of a plow from which the mulchboard has been removed. The crop may be raised into windrows with a hay rake if the soil is loose, or two rows may be forked together. The vines should be bunched after they are partly cured and, as soon as dry enough, put under cover or stacked. Peanut stacks should be covered with a tarpaulin or protected with a covering of sorghum or other hay which will settle and turn water. Spanish peanuts are picked easily and profitably by machinery adapted to that purpose. Many localities now have peanut pickers, either owned by individuals or collectively. Wherever there is any considerable peanut acreage, there should be one of these machines.

Peanuts are not only a valuable crop in themselves but they are one leguminous crop which does well on upland soils and aids in maintaining soil fertility. The peanut straw which is left after the nuts are picked has about the same feeding value as alfalfa and many have found it excellent feed for dairy cattle. Save all the peanuts you can this year and don't let the hogs have the first chance at them. Let them clean up the fields and feed them some grain and you'll not get into trouble with the pickers who object to the soft meat of hogs fattened on nothing but peanuts.

LOVE COUNTY ROAD WORK.

Good Road Will Be Built Connecting Ardmore and Marietta.

George Evans, member of the board of county commissioners from Carter county, returned yesterday from Marietta and Love county, where he and the road engineer of Carter county has been assisting in making road surveys. The Love county commissioners are planning to do considerable work this fall. One of the roads marked for improvement leads from Marietta to Overbrook to the Carter county line and this road will be extended into Ardmore.

Students to Pay a Tax.

Austin, Texas, Sept. 21.—When the fall session of the University of Texas opens during the latter part of this month, a plan will be put into operation by which every one of the three thousand odd students attending this institution will be required to pay a tax of \$6.50 annually in return for which the student is to have free admission to all football games, athletic contests, oratorical contests, and free subscription to the Daily Texan, a paper published by the students, and the university monthly magazine. This plan has received the approval of the board of regents and the University Students' association, and is expected to prove a great advantage over the old plan which has been in operation for many years.

Old Confeds Passing Away.

Austin, Texas, Sept. 21.—Confederate pensioners are dying in Texas at the rate of 300 each quarter, or every three months, according to records compiled by the comptroller's department, but despite this fact the number of pensioners does not disclose a corresponding decrease. This is accounted for by the fact that in numerous instances these old soldiers married women many years their junior, and under the law the widow of a confederate veteran is entitled to the pension after the death of her husband. The number of pensioners now on the rolls is approximately 19,000, which is the same number as have been on the rolls for the past several years. In the opinion of the pension commissioner, the number of pensioners will within the next few years begin to decrease rapidly, and that the present number is about the maximum.

Municipal Buses for Frisco.

San Francisco, Sept. 21.—The city and county of San Francisco is planning to operate auto buses for street traffic in connection with the municipal street railroad, according to the utilities committee of the board of supervisors. The first line will be across Golden Gate park, connecting lines of the municipal railroad, with which transfers will be exchanged.
